Job Title: Maintenance Technician
Rotating 12-hour shift schedule - night shift (7:00 p.m. to 7:00 a.m.)

Reports To: Maintenance Supervisor

Primary Purpose: Operates, maintains, tests and repairs electrical/electronic, mechanical, hydraulic and pneumatic systems and components. Applies skills in assessing equipment malfunctions and restoring equipment to operation. Provides skilled mechanical and electrical/electronic support to all areas of manufacturing.

Expected Attributes:

- Positive attitude with a high level of accountability, personal drive, ambition, integrity
- Competent in communicating directly and openly throughout the organization
- High level of problem solving, troubleshooting, and task/project management skills
- Passion for continuous improvement in all aspects of the company's performance; Pension for driving for results and measuring progress/results

Qualifications:

- Associates Degree in Electrical/Electronics Engineering or equivalent job experience.
- Programmable Logic Controllers (PLC) training and thorough understanding of drive systems, motors, computer programming relative to equipment maintenance and repair.
- Experience with Logix 5000 programming, HMI systems and Logix (Rockwell) platforms, maintenance, repairs, rebuild or installation of machinery and mechanical equipment.
- Ability to read hydraulic and pneumatic schematics.
- Basic welding skills.
- Ability to learn new processes quickly and troubleshoot difficulties while upholding quality standards
- Willingness to work a 12-hour rotating shift schedule (night shift – 7:00 p.m. to 7:00 a.m.) with overtime scheduled as necessary.

Primary Duties & Responsibilities:

General Maintenance:

- Repair and maintain machinery and mechanical equipment.
- Fabricate objects by means of torches, welders, plasma cutter, drills, saws, etc. from blueprint or sketch drawings.
- Inspect, install, repair pipes, fittings, valves, pumps, exchangers, compressors, etc. for material conveying air, water, gas, oil and drainage systems. Cut, bend and thread pipes, assemble and hang.
- Troubleshoot electrical, hydraulic and pneumatic problems.
- Perform maintenance and repairs on forklifts.
- Perform preventive maintenance and work closely with operators to keep lines running in the most efficient and best mechanical condition.
- Clean, prepare and paint machinery and mechanical equipment.
- Practice safe work habits and use proper safety equipment when performing various jobs. Keep areas clean and free of safety hazards.
- Follow lock-out procedures at all times.

- Maintain spare parts and supplies inventory.
- Log repairs and expenses.
- Assist with changeovers on the extrusion lines, when necessary.

Electronics/PLC-related responsibilities:

- Troubleshoot and repair mechanical, hydraulic, pneumatic and electrical/electronic equipment including but not limited to programmable controls, numeral controls, power supplies, drives, gages and test equipment.
- Plan and perform work requiring a thorough knowledge of electrical/electronic and mechanical theories and principles, writing specifications, local and national electrical codes, properties of various materials, and principles of operation and application of electronic equipment.
- Assist with PLC programming and operations relating to drive systems, motors, and other related manufacturing equipment.
- Assist with machinery installations or upgrade projects.
- Complete all other projects or tasks assigned by Supervisor.

Premier Material Concepts (PMC) serves the engineered custom plastic sheet industry with materials for a variety of custom applications, primarily for the thermoforming industry.

PMC is part of the Rowmark family of companies. Rowmark was originally founded in 1997 in Findlay, Ohio. Rowmark continues to produce and distribute a wide array of innovative and quality products designed for the signage, award and personalization markets. Its state-of-the-art warehousing and distribution systems are part of its success, always focused on meeting world class standards with quality service and fast delivery. Rowmark products are distributed in over 80 countries around the world.

In October 2013, the company partnered with Bertram Capital and is staged for major growth.

PMC/Rowmark is an Equal Opportunity Employer that values our employees and offers a competitive pay and benefits package, an encouraging, supportive environment with training, professional development, recognition programs and career growth opportunities. Our benefits include profit-sharing, medical, dental, vision, 401(k), life insurance, flexible spending account options, short-term and long-term disability, vacation and paid company holidays.

We believe that people have always been and will continue to drive the success of our company. If you have questions about this position, please contact us. We would welcome the opportunity to talk with you.

If this sounds like the opportunity for you, we invite you to submit your name for consideration. We are looking forward to meeting you!
